COMMISSIONERS

Carol A. Stevens
TREASURER

Board of Commissioners' Meeting
With North Dighton Fire District Commissioners
Monday 30 January 2012
Forest St., North Dighton

The Commissioners of the Dighton Water District met at 4:00 P.M. on Monday, 30 January 2012, with the Commissioners of the North Dighton Fire District, at the North Dighton Fire District Headquarters building on Forest Street. In addition to all of the North Dighton Commissioners (Chairman Perry and Members Perry and Rose). North Dighton Fire District Administrator Richard Treacy and Superintendent Greg Olsen, and Dighton Water District Commissioners Patrick Menges and Susana Medeiros were present.

Agreed by consensus: That the agreement signed by the late Leslie I. Atwood on behalf of the Dighton Water District allowing the North Dighton Fire District to tax three Forest Street parcels geographically belonging to the Dighton Water District but serviced by the North Dighton Fire District, as to which the Assessors had raised a question, continue in effect without change.

Agreed by consensus: That the Superintendents of the North

Dighton Fire District and Dighton Water District jointly study and

discuss the feasibility of possible future sale of Dighton Water District water to the North Dighton Fire District, and report logistical details back to their respective boards, with a view toward ascertaining potential costs of a long-term initiative.

The Dighton Water District Commissioners toured the truck and storage bay of the North Dighton Fire District facility and withdrew, adjourning in effect, at 4:50 P.M.

Respectfully submitted,

Patrick W. Menges
Clerk of the Board of Commissioners
Dighton Water District
